WORK EXPERIENCE

📅 Sep 2019 - Present 📍 Freelancer

Freelancer as React JS and Wordpress developer

As **ReactJS** developer
- I've been refactoring and implementing reusable components that have resulted in significant increases in page load speed and user engagement.
- Utilized Redux for state management, resulting in reduction in code complexity and increase in team productivity.
- Collaborated with back-end developers to integrate RESTful APIs, optimizing data flow and user interactions.

As an independent **Wordpress** developer I've developed over 10 websites, utilizing popular builders like Elementor and Divi, and crafting custom themes with the ACF plugin. Worked with configurarations of hosting and domains, optimizing sites for faster loading times, and implementing effective SEO strategies to enhance online visibility.

📅 Jun 2023 - Jun 2024 📍 Brainstormtech

Web Developer

I've developed 5 WordPress projects from inception to completion and provided support for an additional 8 projects, involving customization, new features and troubleshooting. Adept at optimizing website performance, successfully elevating page load scores from >50% to 95% and more through meticulous enhancements.

📅 Apr 2022 - Aug 2022 📍 BetInspire

Front-end web developer

- I've been responsible for changing and improving existing platform functionality, developing website frontends, conducting bug fixes, and adding new features.
- Developed and maintained several web applications for various clients, ensuring responsiveness and cross-browser compatibility.

📅 Aug 2020 - Jan 2022 📍 10web

Full stack web developer

I collaborated with a diverse team to enhance plugins and services, and I actively contributed to agile practices, including daily stand-ups and sprint planning. Additionally, I engaged in product releases, code reviews, and provided efficient customer service by managing multiple tickets and email requests daily.

📅 Dec 2017 - Aug 2019 📍 10web

Tech support specialist / Team Lead

I offered technical support for 50+ Premium Plugins and Extensions, managed 20+ customer tickets daily, and led a team of 4 junior developers, providing training and documentation. Additionally, I facilitated daily stand-up meetings, monitored user feedback, and resolved over 3,000+ bugs and issues on live sites.

📅 Jun 2014 - Dec 2017 📍 Web-Dorado

Full stack web developer

I've contributed to the development and enhancement of WordPress themes and plugins. I also collaborated with diverse teams to innovate plugins and services, ensuring accessible and responsive user interfaces. Additionally, I provided technical support to users, resolving bugs and conflicts, and implemented new features based on their feedback.

📅 Oct 2015 - Jun 2016 📍 Optimum IT Center

Frontend Instruction Specialist

As a frontend teacher, I instructed two groups of 6-8 members each on HTML, CSS, and "JavaScript for beginner", utilizing tailored documentations and slides for effective teaching.
